### "The Simple Secret That Will Allow You To Sell **10 Times More** Than Your Competitors Even Though You Are Selling The Exact Same Product!"

There are basically two ways to get a product to sell. One is to make your own, and the other is to get the rights to sell someone else's. You can make a killing with **both** if done correctly.

It's not at all hard to create products of your own. I bought the software [WebCompiler](#) for \$149 and made E-Books as easy as clicking on file and then '**compile**'. All I did was create the entire web sites (books) on my computer, told **WebCompiler** where the **directory** to the site was and clicked on '**compile**' and the E-Books were done!

You don't have to create an e-book though. I just bought a report from a fellow for \$95 about getting killer results with banners. The report was just a normal html page that was in a password protected directory. Very easy to do. For scripts that can password protect your directories check [this site](#) out.

If you want to sell someone else's product let me tell you how to do it so you make **100 times** more than anyone else selling it. And it doesn't even matter if **10,000** other sites are selling the same product either.

The problem most people make with products that have re-print and re-sell rights is that they **all use the exact same sales letter** the creator of the product provided. No one ever **twists** anything to make it different.

The person that **does do something different** makes the money.

Here's what I would do with a product that a **lot of others** was selling. I would write my **own copy** according to the guidelines in the report [Magic Sales Letters](#). I would add all the **best bonuses** I could find and I would offer **Instant Access** to the product.

Just those simple things **done differently** will put you **far past** everyone else.

You can also create your own product **fast** using the power of the Internet. An unlimited amount of information is at your fingertips. **New** people to the Internet are dying to learn even the most **basic things** in a clear and helpful manner.

Here's something that was simple to create...

Have you got one of those letters that sells an **Internet Detectives** kit?

Well, it sells like **mad** ...people are eating that stuff up. Just like they do the **Cable Plans** where they show you how to get cable for free.

All these products are made up of are a bunch of links to various places on the net, phone #'s, addresses to other places that are offline...etc. The thing is, their **entire** program was gathered from **online information**.

You can do the **same thing** with an **unlimited** number of subjects!

### **Hot Selling Products Are Everywhere!**

They really are. You just have to put them together in creative ways. Have you been an avid reader of all the success techniques for years?

If yes, then it's time to STOP reading and start WRITING!

I know a young man that has made **millions** by selling a skin and bones package for an incredible **\$97** dollars!

How does he do it?

He let's every buyer become a dealer and put their name and address on the EXACT SAME letter that sold them. They send out the letter and take the money upfront.

Then they send HIM around **\$30** something to 'drop-ship' the package to the customer. The package is only a 30 page report and two reports as bonuses. That's It!...

For **\$97!** - And People **Eat It Up Like Gangbusters** When It First Came Out!

I don't say that you should do what he did. I'm just showing you how easy it really is to make money. If you're going to sell something for \$97 please make sure it is worth \$97 and not just a money scheme.

.....OR.....

Take Something Everyone Else Is Selling And '**Twist**' It!

Let me give you an example...

When I first thought about giving you this example I thought it would be educational and kind of funny at the same time. It turned out, the more I thought about it, I realized that I could do what I am about to tell you and make at least **\$20,000** this year with the idea!

I thought it was going to be funny because it deals with the UFO reports you can buy the resell rights to from various places on the Internet. I discovered though that there are **Millions** of people who devour information about UFO's. AND there are a **few million on the net** I'm sure.

Keep in mind that **not everyone** with a credit card is interested in making money! - some just like to read **weird stuff!**

To actually do what I'm saying here you would have to have the **sales rights** to the ufo

reports. I don't expect you will sell ufo reports, this is just an example of how easy money **can** be made.

All I would do is turn the reports into a **WEB BOOK** that was **password protected**. I would then create a killer page that would make UFO BUFF'S slober on themselves.

**"The Great Deception"**  
**What you Must Know Now!!**  
**"UFOs And The United Nations"**  
**The Untold Truth!!**

**Get Instant Access To The Shocking Facts We Uncovered!!**  
**If Your Not Blown Over And Weak In The Knee's After**  
**Reading Our In-Depth Report We'll Refund Your**  
**Money 100%!!**

I would use something like **MasterGate** to take the order and send the passwords....

<http://SuperScripts.com>

You could even say in the site that you will be adding more UFO information as you get it. That way they would become long term customers, friends etc....

For something like this I would have a very low price... probably like **\$9.95** or **\$14.95**. I would also constantly be making deals with webmasters of related sites to get my link on their page.

You may think this idea is crazy as they come... it may be, but crazy ideas make money - and I know for a **fact** I could make it work.

If a car secrets book of all things can make **\$20,000** a month on the internet a **UFO Instant Access Site** will make some money too!

One of the biggest secrets is how you make your offer **look**. You can take the **same thing** 1000's of other people are selling and put some **fine graphics** behind it, killer **ad copy**, add some **bonuses** and sell 10 times more than all the others selling the same thing.

If you need some graphic work contact [Sheldon, Chris & Robert Skidmore](#). For **quality**, **price** and **speed** they have **no** match.
