Dear Reader;

This Family Forest® ancestral history book is a response to a single query. The response was generated by the Family Forest® New World Edition.

In this case the single multipart query was: Show all of the descendants of Sir Robert Parke (according to recorded history) who are lineage-linked to him within the Family Forest® New World Edition, along with the spouses of those descendants. Show any and all dates and places that are attached to those people, along with any notes about their lives and accomplishments. Show each book and page reference for every statement and connection, and display the results in standard genealogical format, along with a complete and highly detailed index.

Our Family Forest® project is an on-going project of our best efforts to digitally connect the dots of recorded history, in a lineage-linked format, according to our interpretation of where the experts say they should be connected. Each statement and connection is accompanied by a source location so that you can judge the validity of each statement and connection for yourself.

A more detailed description of each source can be found in the Bibliography section on the Family Forest® New World Edition CD-ROM or online at <http://www.familyforest.com/biblio.html>.

This unique resource is your digital tour guide to a vast wealth of fascinating paper-based ancestral history, and we hope you will thoroughly enjoy the odyssey.

However, please keep in mind that the hundreds of Family Forest® eBook titles are only tiny snippets from the Family Forest® New World Edition CD-ROM, and they are not nearly as much fun as exploring thousands of years of our ancestral history visually through charts in the Family Forest® itself. We hope you will experience the delight and enrichment waiting to be discovered in the primary Family Forest®.

Best Wishes,

Bruce H. Harrison
