

# Discover 101 Easy To Implement Money Saving Tips!

From the desk of The Author

Re: How to plug the money leak.

Question.

**Do you feel like you've got a hole in your pocket when it comes to money?**

It's not easy is it?

I'm actually reminded of a verse in the Bible that says... "He that earneth wages earneth wages to put it into a bag with holes." [Haggai 1:6]

And this one... "for riches certainly make themselves wings; they fly away as an eagle toward heaven" [Proverbs 23:5]

Now this isn't a Bible lesson but it goes to show that the struggle to save money is an age old problem...

Another Question:

**Are you making the same mistake as almost everyone else when it comes to money?**

## What's that mistake?

Most people concentrate ONLY on how much money they can make and ignore how much money they can save! ...

I want to tell you are story...

Imagine you have a huge water pot. Each morning you fill that water pot to the brim with lovely refreshing clean water HOWEVER you don't realise that the water pot has numerous leaks in it.

What happens?

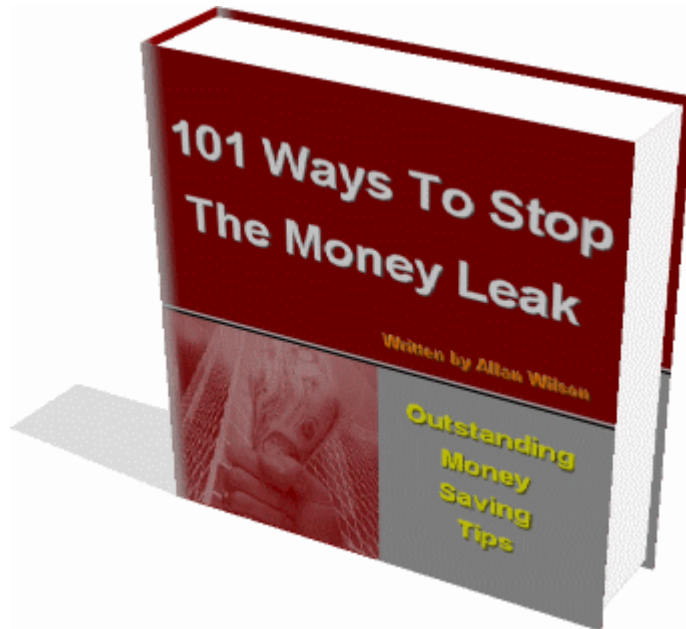

Of course... During the day that water pot slowly runs empty because of all of the leaks. You come home from work dying of thirst and you go to your precious water pot and it's dry.

Sadly this is what we do with our money too... Unless we find ways to save it our financial life resembles very much that of the water pot.

Unless we plug the leaks there will come a day when we need to buy something but the money pot will be dry.

It all starts with plugging the biggest leaks first... Plug just one big leak and that will keep the water and money pot fuller for longer. Manage to plug a few other leaks and your money pot will not be empty when you need it most.

## **Introduction**

People are always trying to save money, especially with today's economy. No matter what your reason for saving, through this e-book, you will discover ways never considered.

The price of everything has gone up, requiring people to be more conscientious about money. The problem is that by the time the mortgage, car, utilities, and credit cards are paid, there is little money to put aside. Saving money is not that hard, just a matter of learning all the different options and being creative.

In addition to the obvious of putting money into a retirement fund or savings account, there are hundreds of ways to save money. Although some ways of saving may not seem like much, once you add them up at the end of the year, you will see how substantial the savings really are.

Keep in mind that saving is more than a single lump sum of money put aside. Saving is something found in your everyday life by the way you live and the choices you make.

Rome was not built in a day and neither will your bank account be. Each penny saved is one more penny than before. If you have the ability to save big, that is great. However, most people are not in that position, which is why this e-book will show you how little savings can add up quickly.

Be encouraged that it is never too late to start saving, regardless of your age. Set your mind that now is the time to start building your future.

Before we start I just want to remind you of the water pot analogy you read on the sales page before purchasing this book...

Imagine you have a huge water pot. Each morning you fill that water pot to the brim with lovely refreshing clean water HOWEVER you don't realize that the water pot has numerous leaks in it.

What happens?

Of course... During the day that water pot slowly runs empty because of all of the leaks. You come home from work dying of thirst and you go to your precious water pot and it's dry.

Sadly this is what we do with our money too... Unless we find ways to save it our financial life resembles very much that of the water pot.

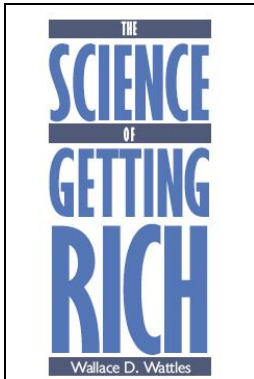

Unless we plug the leaks there will come a day when we need to buy something but the money pot will be dry.

It all starts with plugging the biggest leaks first...

Plug just one big leak and that will keep the water and money pot fuller for longer. Manage to plug a few other leaks and your money pot will not be empty when you need it most.

### **The Law of Success** (by Napoleon Hill)

“Teaching, for the first time in the History of the World, the True Philosophy upon which all personal success is Built. “

“The Law of Success”, is written by Napoleon Hill, the author of the world-famous “Think & Grow Rich”.

### **Meditation: The Inward Journey** (by Blair Lewis)

In ancient times, we used Mother Nature's herbs and fresh foods to help us heal. Then, for millennia, we ignored all of this. Today, modern medicine is re-awakening knowledge about herbs, nutrition, and natural healing. Why? Because ancient methods were effective and have a very long tradition of helping us. We are seeing today that they still work.

Ancient knowledge of meditation is also coming back. This inward science can lead us to the heights of spiritual wisdom and worldly success.
