Others on Angels

Yes, I do believe in angels. I believe that all the souls of the dead are raised to heaven and are set about the world as guardian angels for the living. I believe little children can see them, and feel them and I believe that each child has a guardian angel that used to be a member of their family.

Marie- Jeanne Pense

Angels are God's messengers. They have wings and a halo

JDINTERACTIVE

Those who help you when you least expect it. Strangers that appear out of nowhere in a time of need and help in some sort of way, even if it's not a tangible one.

Isexymf

*Do I believe in Angels? I would have to say that's a No for me, however I believe in the strength that the belief of angels can bring to people. I would like to think that there is some force in this universe that we can look to in a time of need and draw strength from. We all like to think there is someone looking out for us, someone to protect us and someone to share things with and talk to when there is no one left to turn to. If you believe this to be Angels then never lose that faith. If like me, for you this is not angels then just try and believe in something because no one knows what's out there but it would be nice to think there is something out there greater than ourselves. Never forget, it doesn't matter in what - It's just important to believe. **Caren***

Love

What I'm' really feeling right now....

Love

Sometimes it's an empty word

Love

Will I ever be heard?

Love

4 letters one after the next

Love

Is it really the best?

Love

Am not sure what it is

Is it a hug, a kiss, something more?

I want to open the door.....to love

Things holding me back

From the negativity attacks

Who really loves me, Who Do I love

If anyone at all

Love. Am I going to find it. Is it going to find me?

I wish I could go back to being in your arms

Typing this on the computer and tears falling inside

Why can't you come back to me

For one more ride

I never got to say goodbye

Holding me, caressing my hair

Why did you leave, did you need to go there?

Why can't you come back and say hello

Tears falling down my face

Have I already fallen from grace?

Tear 11

*Crying, pouring my emotions out of my soul
Into my cold hands
Terrified and scared
Minutes on end
Again and again
Constant Sorrow
Never leaves
Always remains
Pure in one's heart
Ice: frozen never to be melted
Unless longing occurs
Melts fast to become liquid
Water to drink and yet to shed
Ebony can relate and so does Ivory*

*Open to the spaces of time
Are they beyond our control?
In our minds we gather
To see and find reality
Truth beyond the glass
Below the sharpness and masked
Unhappiness.*

*Love we will find
Let it come, it will one day
Love will find us
Positivity and possibility*

*Silver roses along the path
To brightness
Silver roses along the path
To light*

*Caress you, hold you tenderly
Always*

*One day you will come for me
You will find me alone and cold
Lonely and somewhat afraid*

*Colorful in nature and in life
Love has bridges
When we love we rise*

*We long for someone to hold us and say
I love you.*

*Peace in my heart and yours
Together and forever
One hour at a time
No rushing to get ahead with life*

*11 years all alone
Without you by my side
Wishing I was there
To celebrate our lives
Together as one
For the first time in a long time
I felt loved by you
Holidays are the worst
To be alone
Holidays should be spent with lovers
Not with others...*

Signs from the Angels

Symphony

Angel

Symphony of heart

Symphony of love

Symphony of life?

Angels, leaders of our own lives

Sometimes we are helpers for others

What do you look like oh beautiful one

With or without wings?

Female, Male or without gender

Made of light

Take human forms

When I fall in love

Will I have found my angel forever

Will I have found my angel for now

Bad souls disguised as good

Pretend to be pure

It will come back to haunt them

Word: Karma

Law of cause and effect

Can we write to you?

Do you hear us talking?

Can we speak to you?

What do we call you?

Do you have a name?

Angel of Love

Angel of hate

Do you decide the fate?

Lady Rose

*Smiling always you are
The roses aren't too far
You've gone away
Left me so afraid and alone
Who is going to pay?
U or I*

*For the sin that is leaving Ur only daughter behind
Fragile, the times I thought you'd never leave*

*Then I see you
And I feel you
Then you leave
Never saying a word
Goodbye, number 2
Goodbye Lady Rose*

*Woman with a sense of Pride
Woman with a sense of dignity
Woman with the sense of integrity and
unconditional love
Should only be flown with doves
You should be praised for all you take
Praised for all women's sakes.*

*Lead the way
Lead the way for me
Until you think I can be let go
And be alone
Leave me
Rejoin me in a while
I'm older now, side by side we appear
I trail you for a distance
Then right you turn and disappear*

*So many colors I saw today
All reminded me of you*

*Appear to me
Come to me
From wherever you are
I would love to say goodbye
Two tears falling, one from each side
Join and come together to form a heart
Wipe them away I do
Never to fall again
For years*

Peace of Me

*Angel of Peace was the Angel I received today
Teaching me how to be at peace with myself
Divine, Everlasting, Unconditional Love
Where are you?
In the sky or right by my side?
Where in the skies?
Left of me, right of me
Sitting or Standing
Flying?
Angel cards
Angel of Emergence was my truth
The real me has to emerge
The beautiful, talented wondrous me
Sunday 5/6/07*

*When I heard the ambulance
Came up the many blue stairs they did
3rd level we lived on
Uniforms on, rushing around
Attaining to her
Hearing her screams out of pain
Talking with the lady, leaning on the corner of the
front door I was
Did she know? Were the screams out of her feeling?
Lifting her on the stretcher from her hospital bed
Carrying her down the stairs
Be careful with my mother
Can't remember the rest of it all
Woke up next day, Still in bed
Eyes opened, looked up to my father
Got up, he told me
Numbness arose
Dressed for the funeral and prayer service
Argument arose over my choice of clothes
I wore? Dark color instead of Black?
Reliving the moment
Moment by moment
Something I rarely ever do
Something that I have never done before, I don't
think
Standing at the washing place
Trying to peer over the wall to view my mother
Couldn't get a glimpse
Red van I was not wanting to get out
Left in the back alone for a while
No wanting to come out
Segregated cemetery
Digging a grave
Laying her down*

*Eyes were open?
Wanted me to close them?
Wanted me to kiss her I remember
I did not say yes
Asked more than once
Reply was the same
Stood there for some time
Head down
Simple wooden box
White Cloth*

*Looking up at me
Oh my word
I can't believe I was burying my mother
Such a little girl
Why does this happen?
What did I do wrong?
What did she do wrong?
I must have done something wrong
Something that cannot be forgiven*

*Handfuls of dirt
Thrown on top of the box
Numb hugs and kisses all around
How, Why did I ever leave?
I can't believe I left you all alone
All those nights
Alone
No one to love you
Near you
How could I be so stupid
Oh
I can't believe I left you alone*

*Punishment this was
How can anyone leave a loved one
To sleep alone*

*A beloved thank you to Mr. LLt for the inspiration.
The opening of heart and soul fully from the first
line.*

*Angel help her
Angel help him
Angel help them
Angels, loveable loves
Trouble in traffic
Evening
Night sky
Alone
Rush hour it was
Hopefully waiting for assistance
Hours later drove past again
Still there
Did you ever get home safe and sound?
Nothing was in the news so I guess you all did
Continue you living from now on
Never look back*

*Torture
Crimes against humanity
Are you my angel?
Speaking for me because I cannot
Speaking out against the persons who sadly call
themselves human beings
Human Beings they are not
IS there a difference between human and person
If the tables were turned, would they like it
Would they like being assaulted, hung like chickens
from their feet
Would they like being molested just because they
spoke out against the “administration?”
So called democracies in our world all over
Freedom, do they have?
Freedom, do we have?
Protesting and marching for the unjust
Opinions and beliefs upheld
Not giving in to the scare tactic
Being arrested for believing in something
No big deal
So called Democracy
Are we free?
Abuses just because
Power rules all
Money rules all
Families thrown in jail because of one family
member’s mistake
How dare they raise someone so violent
How dare they raise someone who will commit a
crime?
For that crime you will be punished continuously
Till I say stop, Till my soldiers say stop*

*How dare you come into my country and commit
such an atrocity
Who do you think you are coming into my territory
and hurting another life, without cause
You will not get off that easily
You will be tried immediately
Dealt with once and for all
No reoccurrence
Being banned, Banished for telling the truth
Crimes against other lives, why not?
Crimes against humanity*

Guardian Angel
Those who help out those who do not and cannot
speak out to their authority figures
Those you help those in need
Need of Finances
Need of Love
Need of Clothing
Need of Food
Need of Courage
Indeed it is hard to speak up
Easier it is to let it go
Consequences may be losing something
Will someone else be my voice?

Persons who seem like Angels
Persons who seem honest and true
Persons who seem to care
Hard work is put in
To help out others

Guardian Angel
Looking out for the less fortunate
Guardian Angel
Pure
Keep the line straight
Contentment

Single roses you are now
Free to bloom as you wish
Never have to do what you are told
Love my precious roses
Sweet, caring, beautiful roses
In my heart always

White Rose
Blood and Purity come together
Love appears

Goodbye Mother

Good Morning Mother
Evening Mother
Night Mother

I am assured when I see you
Am loved when I feel you
Am calm and at one when you come to me

Hello Mother
Years and I will see you
Finally
We will be together, forever

*What are you doing for the rest of your life?
Are you going to hold me in Ur arms?
Are you going to keep me safe?
Are you going to fly around the world for me?
Bring me back roses from the desert?
What are you going to do with the rest of your life?
Climb Mountains
Water the garden of blooms
Water your soul and leave mine alone?
To grow, mine to sink
Sing deeply into memories
What are you going to do with the rest of your life
Cry for you cannot see me
Am I going to cry for you?
What are we going to do with our lives?
You and I
Flower me
Heart you
What are we going to do*

*Thank you to Gordon and Christopher for the
inspiration.*

*Darkened room
Light a candle for you
Jazz Plays*

*Memories
Goodbye*

*Many years
Played
Not enough
Cherished*

*Loved ones
Comfort and calm
Remember you
Cry for you
Try to remember the sounds
Laugh for and with you*

*Darkened room
More candles for you
Jazz Plays*

*Tale of two cities
Standing and sitting alone*

*Who are you to me?
Where do we belong?
World where we need each other
Visions of love*

*Hate surrounds us
As do Angels
Honesty no more
Souls are forever forgotten
Buried without goodbyes*

*The world they knew cries
Broken hearts
Smiling souls
Beautiful faces*

*Don't cry little one
Don't cry sir, madam
Don't cry, not a tear mademoiselle*

*How come you can't get something to eat child?
Dying and crying, Lives lost
No freedom gained
Nothing cherished
Souls are shattered into pieces
Never returning
No escaping grips of unruly and inhumane behavior*

*Arms and fingers stretched out
Feet planted on the ground
Standing still, you come to thee
Lay down next to you heart
Love comes to those who lovingly love*

Sound of Water
Sound of Wind
Sound of Voice and conscience within
Nervous Tension in the air
Answer
I will find in the droplets and waves of water
Calm Silence
Lake, pond, sea, ocean
Water you are within me
You are within us all

Sound of water
The music you make
Melodic Orchestra

You begin to awake my senses
Close my eyes
See you all
Start to end
You always call
Call my name continuously
Sound of Water
Here are the sounds of water
My sounds of water

Call my name softly
In despair and in pain
Times of happiness and sad
Beautiful sound of water

Come to me as you are
Go to you as you are
Call my name
I call yours
Charming sound of water

*Pictures I see
Videos I watch
Child curled up
Vulture awaits
Bodies rotting
Diseases arise
Lined up
Single row*

*I believe in the apparent lies and BS he says
No one will care about me
Why should I about others?
Does it matter?*

*Visuals and Sound
Important as angels
Help us understand
Educate us in ways
Rules the souls*

*Laws say one thing
Loves do another
Why all this unjust and happiness?
Greed, money and power is my answer
Families' lives ripped apart just because you can
Where is the freedom/
Higher power where are you in times of need?
Resting or praying on your knees?
If you control all, why are their mouths to feed?
If the malaik do as you say, where are they?
Resting as well
Are you leaving this up to your apparent creations?
How come you don't change the outcome and the
present?*

*If you control all, stop the sadness
If you do have a plan why it is not today?
R U really the master of love/
Master of the stars, the water, the moon?
Where will the world be soon?
How can you want this for others/*

*What lesson is to be learned from this?
You say they will be punished in a place called hell
But what about the suffering and pain on your
earth?*

*Doubting my belief in you
What if you were one of us?*

*Would you like it if someone took away your
beloved?*

*If you did create all?
Why is humanity falling?
People pray to you*

*Look to you for guidance
Their lives may be rich with joy*

*Do you just love them?
Do you take the non-believers soon?
Or is that also part of an elaborate scheme?*

*Of what, can't you help us understand?
If this is true, why can't you take away the torturous
souls, take them away to apparent place of death
and sin*

*Snap your fingers if you have... and make the world
a better place.
Tried for the crimes they commit in court and in
your other world.*

Warmed and light the room
Emotions fill you and I

Dancing isn't for me, you know.
Let's charter the boat

*Sounds of water
You change as I feel for you
Tell you that I care
Loving you become to those inside you
If ignored you are, hatred and rottenness fester
Evil you become until I from soul love you again
Gently nourish beautiful petals
Gently nourishing me
Change you daily as you as I are soul.
Quietly thank me, quietly thankful
Respect you as vital\ to us all
Repaid with love in all forms
Running water, how many droplets do I hear?
Magnificent sound of water
As I continue to show you heart
Purity you remain
Love to those inside you
Thirsty you were
Wondrous beauty you are*

*Cold night
Full Moon
Beauty of you
Dual, femineity whole
Masculinity in parts
Like Nature, same as above
Our world faltering,
Continuously sick, contributing to her continued
illness, why?
Naked one night awake to find you partially clothed
We're doing something right?
Left alone to be yourself
Flourish, standing up confident
No help from anyone, no watering
Trust
Doing your thing
Getting your dreams on track
Nobody to tell you, you can't
You go ahead girl
U wanted to finally grow and bloom
U did, yes you did!
Are you anyone or anything, Mr/Miss/Mrs Angel?*
