

This article collection covers a wide range of topics. All of these articles can be found at <http://www.articlesbase.com/authors/stig-kristoffersen/34356.htm>.

However, in this booklet, I have collected all articles, and categorized them so it is easier for you as a reader to find an article within the area of your interest.

At the moment there are 139 articles, sorted into 9 different categories (see below for the list). I have not taken the liberty of listing all articles within this booklet, but rather made links directly to the original source of the article. This will enable you to quickly find the article with the right content, without having to read through a massive amount of information before getting to the article of your interest.

Best of luck, and I hope you will find some valuable information in this article collection. I am doing my best to update the article list, so it will reflect all articles I have written over the time. So there will be continuous revisions to this booklet.

Best regards Stig-Arne Kristoffersen, Manama, the kingdom of Bahrain, June 2008
