

FREE Computer Certification Training Resource Guide!
By: Bill Naugle

Information technology certifications in Microsoft, Comp TIA and all others computer certifications can be achieved with adequate training. This resource guide is a good beginning step towards your certification. Start with some FREE online computer certification courses.

These online information technology certification-training courses will begin to prepare you for your certification exam. These courses will give you a good start but will NOT fully prepare you for your Computer Certification exam.

The best information technology certification computer training in the world may not totally prepare you for your IT certification Exam. This is why you need instructions on how to pass an IT certification exam. You will need my ebook: "How to pass your Information Technology Certification Exam" in order to be fully prepared for your final certification exam.

The main goal is NOT completing your computer or information technology certification training but it is passing your IT certification exam. Completing your computer certification training is a good beginning but you will not have your certification until you pass the IT certification exam.

My ebook: "How to pass your Information Technology Certification Exam" (<http://www.lulu.com/content/921188>) is essential for ALL who are seeking computer certification training and are serious about passing their IT certification exam the first time with a high score.

In order to be fully prepared for your computer certification exam you will need my ebook: **How to pass your Information Technology Certification Exam!** This book sells for:

\$7.60 at Amazon: <http://www.amazon.com/pass-your-Information-Technology-Certification/dp/B000SCHAKI>
