For details of this ebook see description: <http://www.lulu.com/content/921188>

This is your resource guide to free practice exam questions relating to information technology computer certification. Microsoft, Comp TIA, MCDST, MCP, MCSA, MCSE, A+, MCPD, Comp TIA Network, Comp TIA Security, CCNA, CNA, CISA and many more information technology computer certifications are achieved by proper preparation using practice exam and test questions.

Students of computer repair and information technology want material that is relevant to the certification they are seeking. Many look for study guides, practice exam questions and online tutoring to help them gain their computer certification. Practice exam questions are great as long as you are studying the exact same questions on the final certification exam.

Free practice exam and test questions can be a good start in being prepared for your final certification exam. These free practice exam questions will NOT fully prepare you for your computer certification. You will need my ebook: **How to pass your Information Technology Certification Exam! Go here:** <http://www.lulu.com/content/921188> which sells for \$9.95
