## Diagram of the Levels within the Three Great Circles of Magic

This includes all Religions and Philosophies that use Prayer or Supplication to any kind of Deity, and those who refute the existence of any kind of Deity.

This is the beginning of the Path of the Seeker. Until the decision to step beyond Faith and Worship is made, no inquiry beyond the Dogma of the chosen Faith is required. Once this step is made the Practitioner begins the journey towards greater Understanding.

This is the place where the first understanding of Creation, and How it Occurs begins. It's also the beginning of "Occult" knowledge, because information that was "hidden" by the smoke-screen of Worship and Faith starts to be revealed here. It is the first entry of Neophytes through the Portal into the place where the informed decision and agreement to Open Your Mind is made. From now on everything is consciously part of the Practice.

## Diagram of the Levels within the Three Great Circles of Magic

This is where the bulk of the Practice takes place. It is the Level of the Acolyte. All events, as mentioned in the description of the Three Great Circles of Magic in my book "*Powerful Magic – Secrets from the Inner Circle*", are studied in depth here. Includes esoteric and scientific methods. The nature of Time is introduced. Most Practitioners spend their lives working at this Level.

This is where the Cycle of Creation and How it Occurs is Realised, and testing for Self-control and Balance of Mind occurs. The Law of the Paradox becomes apparent to the Practitioner here, and the ability to "Step Outside" Yourself becomes second nature. Still an Acolyte, here the Practitioner enters the beginning of their training for Mastery – often called "The Dark Night of the Soul" – and is usually unaware of the specific entry point. This is also where the ability to assist others along the Path is studied, with guidance from the Instructor. After a series of trials, tests and examinations by the Instructor, the Acolyte becomes a "Master", with a full and well-understood Knowledge of Time, Themselves, and whatever area of expertise they've chosen as the Tools for their Exploration. Somewhere within this Level, the Practitioner will exit the Portal and Cross the Abyss back to "normal" life.

This Circle carries an implied Fourth Level relative to the three Levels of the Middle Circle, and an overall Seventh Level relative to the Three Great Circles of Magic – and itself. This is where an Understanding of Dimensional Overview, and the Cycle of Creation becomes apparent and Useable. The Law of the Paradox is accepted, resolved and Understood as Logical and inherent Knowledge. The Practitioner – now an Ascended Master, or Adept – continues the Practice as a way of life, and chooses if and when to offer Information to Seekers. It is due to the perspective gained along the Path, which culminates within the Inner Circle, that the Outer Circle method of Worship is Understood as a Magical Practice.
